CME credits for the Symposium 213 have been applied for at the European Union of Medical Specialists (UEMS) – European Board of Gastroenterology (EBG). The number of credits awarded will be printed in the final program.

Preface

The mechanisms underlying the chronic intestinal inflammation that is a hallmark of inflammatory bowel diseases (IBD) are complex. Advances in the understanding of IBD pathogenesis have resulted in the development of multiple biological agents that all represent an alternative to the use of current therapies in patients with refractory Crohn's disease or ulcerative colitis.

However biomarkers and patient stratification is key to personalize treatment in IBD. As clinicians we may oversimplify the complex nature of IBD and pay not enough attention to the heterogeneity of the pathophysiology and clinical presentation of these disorders. Taking into account specific risk factors, genetic phenotypes, pharmacokinetic characteristics, and other particular features unique to each patient would allow a personalized approach to manage the disease. Personalized medicine therefore represents the tailoring of the medical approach and treatment to the individual characteristics of each patient and is expected to become the paradigm of future healthcare.

The advancements in systems biology research and the rapid development of high-throughput technologies, as well as the characterization of different -omics, will contribute to a shift in modern biological and medical research from traditional hypothesis-driven designs toward data-driven studies and will facilitate the evolution of personalized or precision medicine for chronic diseases such as Crohn's disease and ulcerative colitis.

The aim of this Falk Symposium is to dive into possibilities of personalized medicine for IBD patients. All speakers and moderators are internationally recognized IBD experts and build the basis for an up-to-date state-of-the-art symposium on IBD. The program is designed to provide opportunities for ample discussion and interaction with speakers, moderators and attendees.

We like to welcome you in Milan, the capital of tailors and designers, which will provide a perfect setup for a meeting on tailored therapies.

9.00 Welcome

S. Danese,
Milan

Session I

Predicting good or bad prognosis

Chair: S. Danese, Milan; A. Sturm, Berlin

9.10 Genetic and clinical features for natural history

V. Annese,
San Giovanni Rotondo

9.30 Endoscopy to tailor choices

M. Daperno,
Turin

9.50 Radiology to predict natural history

G. Fiorino,
Milan

10.10 Biomarkers

M.C. Dubinsky,
New York

10.30 Coffee break with poster session

Session II

Conventional therapies: Optimizing therapies to patient profiles

Chair: J. Lindsay, London; B. Siegmund, Berlin

11.00 Steroids: old and new formulations

S.P.L. Travis,
Oxford

11.20 5-ASA in UC: outdated or still state-of-the-art?

A. Dignass,
Frankfurt

11.40 Azathioprine: outdated or still a valid option for UC and CD?

F. Baert,
Roeselare

12.00 Methotrexate in CD and UC after METEOR

F. Carbonnel,
Paris

12.20 Lunch break with poster session

Friday, October 5, 2018

Session III

Anti-TNF: a tailor made approach

Chair: M. Allez, Paris; F. Rizzello, Bologna

Poster Session

Posters will be exhibited on October 5–6, 2018. The authors will be in attendance during coffee and lunch breaks on both days. The setting up of the poster session starts on Thursday, October 4, 2018 at 16.00 h. The authors are asked to mount their poster on Thursday.

Call for Posters

Please submit your poster abstract before **June 15, 2018**. Only one-page abstracts not exceeding 300 words, written in English, and saved in Microsoft Word format will be accepted.

Abstracts must be submitted via our Internet Abstract Submission System (<http://www.falkfoundation.org/poster>), where further information regarding the submission format and the submission process is available.

The abstracts will be selected by the scientific organizers, preference being given to those thematically related to one of the sessions of the program. The accepted abstracts will be printed and distributed to the participants of the congress together with the documents of the meeting.

The authors will receive notification about acceptance and further instructions in **July 2018**.

Contact address for further information on the poster session:
